

PRODUCT INFORMATION

LIGHTWEIGHT SHELTERS

Descripton:

ATC have over many years designed and produced many different lightweight shelters.

We can deliver shelters in steel, aluminum and stainless steel depending on the customer's needs.

This shelter is insulated with internal cladding, as with most of our deliveries.

Electrical installation such as distribution panel, sockets and lighting is included.

We also supply HVAC units and furniture.

The surface treatment is done according to the customer's requirements, both regarding the quality and design.
