Description:

A fully self contained standard 20 foot container, DNV certified and specially built to a service container with workshop. Other sizes are also possible, though at higher cost.

Internal layout to meet clients specific requirements, this particular container is built with 2 separate rooms, an office section with 2 desks/work areas and workshop/service section.

A ventilation system can be included, this example with 5 kw split cooling unit and fresh air ventilation with filtered and heated air.

ATC take full responsibility for all design engineering, fabrication, procurement, installation and testing of the complete container.
