Certification : DNV rules 2.7.1

Description:

A specially built standard 20 foot container, DNV certified and modified to suit clients specific requirements, reducing cost and delivery times. This particular container is built as a combined control room and workshop.

The workshop is equipped with a wall mounted swing crane with 1500mm radius and SWL 1000 kg. The control room has Norac paneling, fresh air ventilation as well as an HVAC unit with 6 kw cooling capacity.

ATC take full responsibility for all design engineering, fabrication, procurement, installation and testing of the complete container
